

TOOLJAW® — The Toolholder Clamp Champ

Lyndex-Nikken ToolJaws are machinists' favorite tooling setup fixtures because they are so handy and practical. Load a toolholder into a ToolJaw. You'll gain immediate access to both the working end, *and* the taper end and your toolholder will be secured by a vise-tight grip.

Easy to use, just place or mount your ToolJaw in a convenient spot and slip a holder into its cradle. Raise the flange lock and secure it with an easy-to-grip thumb screw.

ToolJaw provides maximum toolholder accessibility with minimum handling. Less handling means fewer chances of costly toolholders being dropped or damaged. Save the time and the hassles of using yesterday's toolholder loading and unloading techniques, and save the money you would spend on replacing damaged toolholders.

TOOLJAW® CLAMPS

Part Number	Description
B30-TOOLJAW	BT 30-Taper TOOLJAW
B35-TOOLJAW	BT 35-Taper TOOLJAW
B40-TOOLJAW	BT 40-Taper TOOLJAW
